

ARCTIC FOAM

NEUTRAL HIGH FOAM DETERGENT

- Leaves a gleaming, streak free finish.
- Suitable for internal and external cleaning.
- Effective with hard or soft water.

USES

Highly effective neutral detergent with high foaming properties and a deep cleaning formula designed for extensive use in the automotive industry.

Arctic Foam can be used safely to clean paintwork, bodywork, plastic, rubber, perspex, aluminium and even upholstery.

When on paint and bodywork, Arctic Foam will leave a gleaming finish without a streak or spot in sight.

Use in snow foam lances to produce a deep cleaning, thick foam that will neutralise car surfaces after using our Traffic Film Remover or other alkali cleaners, enabling better finishes when applying waxes.

Simply dilute into a bucket and apply via a sponge or cloth to use as a hand wash detergent on all vehicles.

USES

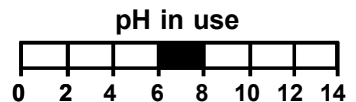

Dilute as below, apply using a sponge, cloth or foaming lance.

DILUTIONS

ARCTIC FOAM : WATER	
Snow Foam 1 : 4	Sponge / Cloth 1 : 50
