Alkali

Machine Wash Laundry Powder

LC1

Professional Non-Biological Machine Wash Laundry Powder.

Formulated to clean & freshen laundry in all temperatures.

Our Biological Laundry powder features an enzyme-free formulation to clean, freshen & remove stains to the highest standard.

Designed for professional use.

BENEFITS

- Cleans quickly & effectively.
- Suitable for use at all temperatures.
- Contains enzymes to offer great results with one wash.

HOW TO USE

Soft & Medium Water: 2-4 scoops for light to heavy soiling.

Hard Water: 2-5 scoops for light to heavy soiling.

Soiling & water hardness vary, you may need to adjust the amount of powder used. Disappointing results are commonly caused by not using pre-wash or not using sufficient powder.
