Foaming Hand Soap

SC3

Fresca is our luxury instant foaming hand soap, utilising biosurfactants to produce an enhanced, high foaming formula.

Delicately scented with a neutral fragrance providing fresh, clean, revitalised hands.

Fresca is designed for use through dispensers specially designed for foaming hand soap only.

Biosurfactants are found in nature and are produced using biological processes, this leads to a reduced carbon footprint and economy in use.

Suitable for use in all industrial and commercial environments.

Designed for professional use.

BENEFITS

- Enhanced foam using a biosurfactant.
- No dyes or parabens
- Economical in use
- Neutral, fresh fragrance

HOW TO USE

Dispense through a specially designed Foam Soap Dispenser.

Apply directly to hands, rub hands well together, then rinse away with clean water and dry hands.

Dispenser Refill: Pour from the 5 Litre bottle directly into the dispenser container.
