METAGLYNT

CLOVER CHRISTEYNS

METAL POLISH

★ Stainless Steel
★ Brass   ★ Bronze
★ Copper   ★ Aluminium
★ Zinc   ★ Chrome

Code: 708

USES

MetaGlynt cleans, polishes, shines, removes stains, removes tarnishing, removes discoloration and removes oxidation.

MetaGlynt produces a high shine on stainless steel, brass, bronze, copper, aluminium, zinc and chrome.

DIRECTIONS

Apply a thin film with a soft clean cloth to a small area at a time. Burnish and polish with a dry soft clean cloth to a high shine immediately after application.
**NB.** Do not use on decorative gold or silver coatings.

USES

Use undiluted.
