Polymer Floor Cleaner & Maintainer

FC10

Panther is our superior liquid floor maintainer that will re-coat and repair floors leaving a flexible slip resistant finish. Panther will restore all floors to their original shine, whilst simultaneously cleaning and removing scuff marks and dirt. Panther maintains polished and un-polished floors, keeping them at their optimum appearance, leaving a sleek finish with a protective, anti-slip coating. Engineered with unique polymer technology that adheres to floor polishes and finishes; enhancing and prolonging the protective coating and gleaming finish. Ideal for use on a wide variety of floors including marble, terrazzo, linoleum, vinyl, rubber, tiles, stone, sealed wood and sealed cork. **Designed for professional use.**

BENEFITS

- Outstanding gloss finish
- Repairs scratched, marked and worn areas
- Excellent cleaning results

HOW TO USE

Shake before use and dilute according to the job. Always vacuum floor first.

Clean heavily soiled floors with Blu+ prior to application.

Trigger Spray: Spray onto floor & allow contact time then burnish.

Bucket: Apply using mop, agitate and remove any excess liquid. Allow floor to dry. Machine polish to a high gloss.
