

PROTECTA WASH

NEUTRAL SHAMPOO WITH POLYMERIC WAX

- Leaves vehicle paintwork with a gleaming finish.
- Cleans paintwork, plastic and rubber efficiently.
- Safe to use on all surfaces.

USES

Protecta Wash is our highly concentrated automotive shampoo with wax, ideal for use on all motor vehicles.

Formulated with specialist surfactants, Protecta Wash creates a thick cleansing foam that breaks down dirt and grime to leave a streak-free, high-shine finish.

Protecta Wash's unique formula has been engineered to leave a highly advanced polymeric wax coating to all vehicle paintwork, forming a protective coating that will last up to a month.

Apply Protecta Wash liberally via hand with a sponge, mitt or cloth then agitate and rinse away. Alternatively, apply via a foaming bottle or a pressure washer feed.

DIRECTIONS

Check surface compatibility prior to application. Protecta Wash is neutral when diluted as per below.

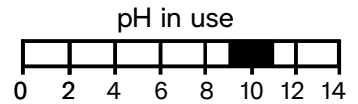

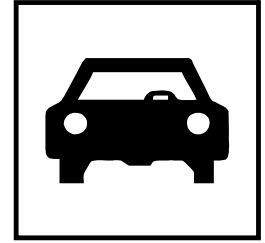

Bucket / Manual Cleaning: Dilute as below, apply with a sponge or cloth, starting at the highest point to be cleaned. After cleaning, rinse thoroughly.

Snow Foam / Pressure Washer: Dilute as below. Apply using relevant apparatus. Repeat steps if necessary.

DILUTIONS

PROTECTA WASH : WATER	
Snow Foam 1 : 50	Sponge / Cloth 1 : 50

Code: AC3
